

Warranty & Repairs Policy

Effective for all orders placed on shopease.com

- 1 All electronics sold by ShopEase carry a 1-year manufacturer warranty against defects in materials or workmanship, starting from the delivery date.
- 2 Accidental damage, including drops, liquid spills, and cracked screens, is never covered under the standard 1-year warranty.
- 3 Warranty claims require proof of purchase in the form of a valid order ID. For electronics priced over \$100, a short photo or video clearly showing the defect is also required before a claim can be processed.
- 4 Approved warranty claims are resolved as either a free repair, typically completed in 10 to 15 business days, or a replacement unit, at ShopEase's sole discretion. Warranty claims are never resolved as a cash refund.
- 5 ShopEase Care is an extended warranty plan purchased separately at checkout. It covers accidental damage for up to 2 years from the original purchase date, with a maximum of 2 approved claims per item over the life of the plan.
- 6 The standard warranty and ShopEase Care are both void if the item was purchased through an unauthorized third-party reseller rather than directly through shopease.com.
